Cloud Operations + Innovation (CO+I) is the team behind one of the World's largest Cloud Infrastructures, responsible for powering all Microsoft online Products and Services as well as powering Microsoft's "Cloud First" mission. Our focus is on smart growth, h... The Infrastructure Planning and Acquisition (IPA) organization is seeking a Program Manager for our Region Design team in support of the Americas. This position is responsible for creating long term designs for the launch of new Azure Regions and expansion of our existing regions. To create optimal designs, the person in this role will partner with multiple engineering groups, finance, and land, energy, and network teams to ensure we meet our customer requirements, design principals, and financial targets. Additionally, this position is responsible for getting alignment and approval of the region design across multiple disciplines both inside and outside of the Cloud Operations + Innovation (CO+I) organization.

In alignment with our Microsoft values, we are committed to cultivating an inclusive work environment for all employees to positively impact our culture every day.

Qualifications

Basic Qualifications:

- Bachelor's Degree AND 2+ years experience in engineering, product/technical program management, data analysis, or product development
 - o OR equivalent experience.
- 1+ years' experience in cross functional program management, especially in a strategy, planning and decision-making environment
- 2+ years' experience in data and analysis for decision making
- Demonstrated experience in using communication and leadership skills to drive projects, and build buy-in and support

Preferred Qualifications:

- 1+ years' experience working with physical infrastructure in some capacity.
- 2+ years demonstrated experience leading and managing a business-critical function
- Ability to communicate and present complex analysis at the executive levels for alignment and decision making
- In-depth knowledge of Microsoft's regional datacenter and network architecture
